### FORMER CLYDE RESIDENT WINS LABOR DAY SOAPBOX DERBY

CLYDE — It will be of interest to Clyde residents to note that the winner of the Sixth Annual Soapbox Derby held in Edmonton on Labor Day, was David Nichols, eldest son of Mr. and Mrs. H. E. (Bert) Nichols of Edmonton, who were for many years residents of the Clyde district. David was presented with a trophy and a shiny new bicycle.

Funeral services were held last Wednesday morning in St. Edmund's Church, Edmonton, for Mrs. Clara Dusseault, beloved wife of Moses Dusseault of Edmonton. Mrs. Dusseault passed away on Sunday, Sept. 2, following a brief illness, leaving to mourn her loss her loving husband, one daughter, Marie at home, and one brother, Adolph Lebeau of Clyde.

Mrs. Dusseault lived for many years in the Reed Lake district north-west of Clyde, and leaves a host of old friends to mourn her lost.

Miss Madge Smith of Westlock is back in Clyde every Thursday teaching Toronto Conservatory piano lessons.

### CLYDE COMMENTS

The reason why ink is blue is because it is in the pen doing a sentence.

People are reading the book "Around the World in 80 Days" to try and find out what detained him.

### Delivery Quotas

The initial delivery quota of 6 bushels to the acre will seem like old times to Alberta farmers. Times during the recent war when wheat at half its present price was glutting the storage facilities all the way from the seaport terminals back to the storage bins on the farms.

However, times have changed in one respect. We can clearly see from this distance an end to the wheat storage problem before the start of the next crop year. Besides, farmers are better able to get lumber and other building materials with which to build bigger and better grain storage sheds on their own property.

It would be wise for every Alberta farmer, as he eyes his standing crop or bushy swaths, cuts or combines it, to determine his likely need of home granaries and build accordingly. Then, this extra storage space, readied for the 1951 bumper crop, will be there for future emergencies.

The Government and the railroads have taken extraordinary steps to provide for the forthcoming rush of wheat and other grains to country elevators. But they can't do everything, and there is a great deal the individual producer can do for himself.

### Calgary By-Election

The Conservatives have already established Carl Nickel as their candidate in the forthcoming election in Calgary, to replace Mr. Smith who resigned.

This constituency, of course, is an urban area and Calgarians aren't the kind to have outsiders tell them what they should do or how they should vote. Whether the Conservatives or the Liberals win it won't make much difference to the House of Commons in Ottawa, as the Government has such a big majority now.

An important point, however, is that Calgary is still largely dependent on agriculture and cattle raising for its existence. (Ever hear the term "cow town"?) It takes great pride in its annual stampede and exhibition. We doubt if a man whose sole interest in promoting the oil industry, will be able to serve well the majority of Calgary constituents.

Besides, the Conservative party, by holding back on an election long after the former member announced his resignation, has effectively disenfranchised this constituency for nearly a year. We wonder how Calgarians, oil town or cow town variety, like what.

### Spiritual Failures

With the prospect of bumper crop in 1951, we in Alberta can pat ourselves on the back for success in material things. But wealth won't give us happiness unless we are spiritually rich as well. Arthur Toynbee expressed it as follows:

Man has been a dazzling success in the field of intellect and "know-how" and a dismal failure in the things of the spirit, and it has been the great tragedy of human life on Earth that this sensational inequality of man's respective achievements in the non-human and in the spiritual sphere should, so far at any rate, have been this way round; for the spiritual side of man's life is of vastly greater importance for man's well-being (even for his material well-being, in the last resort) than is his command over non-human nature.

Let us renew at this time our quest for the things of God, food for the spirit, that will not only enrich our material resources but our souls as well.

### Note and Comment

Approximately 14 billion loaves of bakers' bread are now consumed annually in the United States.

## CPR, Imperial Oil Appeal Ruling on Natural Gas

Imperial Oil Ltd. and the Canadian Pacific Railway will appeal a court ruling that natural gas and petroleum are two separate and distinct natural resources.

### Indian Reservation May Be Abolished

The day may come when Indian reservations will shrink and disappear in Canada because they are not needed, according to a retiring official of the Indian Health Service.

Dr. E. L. Stone, of Edmonton, has been regional superintendent of the service for Alberta, the Alaska highway and the Yukon since 1946.

"We won't see it in this generation," he said, "but the Indians will progress to the time when reserves will shrink and not be needed."

Stone said the Indians had made "enormous" educational and social progress for a primitive people.

The two companies filed separate notices of appeal in Calgary, each listing 55 identical grounds for challenging the judgment handed down by Chief Justice W. R. Howson last May 9.

The judgment said that Michael Borys, owner of a farm which his father bought from the CPR in 1906, was the owner of the natural gas under his 160-acre farm. The CPR retained petroleum rights when the land was sold, but the oil cannot be removed without use of the natural gas found with it.

Chief Justice Howson made permanent an interlocutory injunction which prohibited the companies from using the gas in removing their oil from the land.

The next sittings of the Alberta Appeal Court in Calgary open Oct. 15.

Imperial Oil and the CPR alleged in their notices of appeal that the findings of fact, the reasons for judgment and the judgment itself were contrary to law, evidence and weight of evidence relative thereto.

They alleged that the Chief Justice should have held in the reservation reserving to the CPR all coal, petroleum and valuable stone the word "petroleum" was used in its broad, generic and technical sense and that coupled with the word "all" it would include natural gas.

## Nurses, Miners, Engineers Head List Of Help Wanted Throughout Alberta

Alberta's employment picture is "brightest in years" with an outlook for continued full employment, according to a bulletin from the National Employment Service.

The demand for farm laborers, especially those for haying crews, is heavy in the province.

Experienced miners are also in demand with Drumheller, Edson and Blairmore needing both certified coal miners and underground laborers.

Employment in packing plants is at a seasonal level and there is a very light turnover in personnel.

Blairmore reports that all the sawmills in the district are running full time and there is a heavy demand for mill hands and general labor.

The glass and pottery industries are in the middle of a slack period and the only employment is open to former employees who had to be laid off.

Local NES offices throughout the province are continuing to receive orders for extra gang laborers for the railroads.

#### BUSINESS GOOD

Edmonton wholesale firms report that business, especially in the machinery and building material lines, is very good. Although there is a heavy demand for workers the orders are being filled quite easily.

Women are finding it slightly harder to get jobs. Single, experienced stenographers are in heavy demand, but there is the usual surplus of inexperienced or unsuitable sales clerks and general office workers.

The high demand for domestic workers is expected to rise even higher. But employment officials state that it is hard to interest women in these jobs.

There is still a short supply of

registered nurses and all Alberta hospitals have orders for them on file with the NES.

The nurses' placement officer in Edmonton reports that there are eight openings for matrons, and three nursing schools require operating room supervisors.

Laundries and dry-cleaners are currently in their busy season and the demand for wool and silk spotters, as well as pressers, is high.

All holiday relief orders were filled very easily with married women and students.

According to the NES many employers on the prairie provinces are beginning to hire handicapped and older persons.

High school students have been placed fairly easily. Only ten percent of this year's graduating class have yet to find suitable employment.

Those students who do not possess a high school education are finding things a lot harder. Most of the jobs open to them are in construction fields.

**Very few veterans, excepting those in the older age groups, have yet to be placed.**

Engineers of all types are practically unavailable and there are many vacancies open for them.

The demand for junior engineers seems to have been well met by the graduates from universities, and the only engineers available are those who are seeking a change of jobs.

Senior geologists, construction engineers and experienced superintendents are also in heavy demand, and there are no men available to fill these vacancies.

### MOOSE ORDER NAMES OFFICERS

LETHBRIDGE—(BUP) — Frank Burbank of Taber was chosen Grand Governor of the provincial Loyal Order of the Moose in Lethbridge this week. He succeeds Robert Moody of Lethbridge.

E. J. Thompson of Edmonton was elected Grand Secretary. About 300 delegates were in attendance.

intendents are also in heavy demand, and there are no men available to fill these vacancies.

Only about 70 of this year's graduates from the Universities of Alberta, Manitoba and Saskatchewan, are still registered with employment offices. About half of these are females, mostly grads of the arts courses. Most of these girls have temporary employment, but are seeking work more related to their academic training.

While the number of unfilled vacancies in Alberta has gone down to about half what it was last year, there are very few extra jobs.

The number of registrations and placements of persons has nearly doubled since this time last year, with the number of unplaced servicemen dropping heavily.

Insurance claims this year are just half the number up to the same period last year. The Unemployment Insurance Commission has had about \$250,000 less to pay out in unemployment insurance.

## ALBERTA'S PLEA FOR STEEL FOR BRIDGE UNHEEDED BY OTTAWA

A two-week-old request of the Alberta government for a steel priority for construction of the Beverly bridge has gone unheeded by the Federal government, according to Highways Minister Gordon Taylor.

He said that workmen are in the final stage of constructing the piers and steel work will be ready to start soon if the priority is received.

He said the steel work should not be delayed because the bridge over the North Saskatchewan river is considered vital to the industrial growth and defence production of the Edmonton area.

## Barfoot New Primate Church Of England

WINNIPEG — (BUP) — Beau Orage, a three-year-old chestnut colt, flashed to victory Saturday in the 22nd running of the \$5,000 added Canadian Derby at Polo Park here.

Beau Orage, with veteran jockey Johnny Craigmyle up, set a new track record for the one mile and one quarter distance of two minutes six and two-fifths seconds. The time clipped two fifths of a second off the old mark set in 1947 by Sir Berrill.

Mount Branca, this year's King's Plate winner and three-to-five favorite at post time, ran second, finishing about four lengths behind the winner. Wideman, owned by H. Wiedman of Vancouver was third in the four-horse race.

Beau Orage is from the stables of F. M. Holden of Midnapore, Alberta. The colt broke on the post and raced neck and neck with Mount Branca for three-quarters of the way before forging ahead.

The victory was worth \$5,150 to Holden. Beau Orage returned \$5.55 and \$2.20 on a \$2 win ticket. There was no show betting.

Sailing distance from the northern entrance to the Gulf of St. Lawrence to the head of Lake Superior is 2,338 miles.

Members of the House of Bishops, in the scarlet vestments of their office, sat on thrones inside the altar railings.

The Archbishop was elected Primate by the electoral college of the general synod, and his position makes him spokesman for the whole church, particularly in its relation to the state and with other churches.

This was the first time a Primate had been chosen from a See in Western Canada.

## Coast Golfer Wins Totem Pole Tourney

JASPER, Alta. — (BUP) — The Totem Pole golf trophy will remain in Vancouver for the second year in a row.

In the absence of Walter McElroy, Vancouver 1950 winner, youthful Peter Bentley, of the Capilano Golf Club in Vancouver, Saturday defeated Harry C. O'Ferrall of Fort Wayne, Indiana, three and two, in the 36-hole final.

At the end of the morning round, the players were all square. In the afternoon round, however, Bentley won the 20th and never looked back.

One of the family has remarked that I  
am selfish because I say we should  
all take our vacation together.

Do you think it is right for me  
to be left with the care of three  
small children, day and night,  
while he goes to the beach? My  
husband says he doesn't see anything  
wrong in their leaving me out and he

very nice to pay his way for a week.  
What do you think?

Worried—Penn.

Answer:

I think your in-laws are selfish,  
and your husband is immature and  
thoughtless.

If they were really thinking of  
your best interests as a family,  
they would help you have a vacation  
together. They would give some  
thought to you and your  
children and not put themselves  
on the back for doing something  
they, themselves, will enjoy.

As for your husband, he acts  
like a little boy. He forgets that  
he got married for better or worse  
and in sickness or in health. Unless  
he is on the verge of a nervous  
breakdown, he should share all  
the bad times, as well as the  
good ones with you.

I don't see how he can be in  
need of a rest any more than a  
woman who has had three children  
in six years and very little money  
to operate on.

A husband and wife should  
stand together. They should re-  
sent discourtesies to each other  
as much or more so than such acts  
to themselves.

LOUISA.

## CYU Closes 1950-51 Executive Year

ST. ALBERT—August proved to be an eventful month, crammed full of social activities. The CYU annual picnic, held at Lac Ste. Anne the first part of August, with most members attending, was a success. The highlights of the day consisted of ball games, swimming and boating.

A social was held the day of the Pilgrimage and again on the following Sunday a house party was held at the home of Philip Morin. Both socials proved to be a lot of fun.

On September 2 the French Federation gave a party in honor of all members attending school and college outside their home towns. A large number of members attended from various CYO's to make this party a success.

On September 9 the CYO held a Communion Breakfast in honor of Andrew Morin, president, who is entering the Seminary. A special thank you to all the members who so unanimously helped to make this last minute event such a success. Mr. Blair was guest speaker, while Emile Morin and Bud Iselke spoke on behalf of the CYO. Father Labonte presented Andrew with a token of appreciation for the wonderful work he had done throughout the year.

Our regular monthly meeting

was held on September 9. Following the reading of the minutes elections were held for a new executive for the year 1951-52. Congratulations and best wishes to the new executive: President Johnnie Lavoie, secretary Emma Hesse; vice-president, Emile Morin, and treasurer, Dave Terault. The rest is up to you, members. Support your executive to make this year every bit as successful as last year.

On behalf of the 1950-51 executive I wish to thank all the members and especially Father Labonte for all the co-operation we have received all year. Your club is what you have made it and you have a right to be proud of it.

OTTAWA—(BUP)—Canada's railroads are working at top speed moving the backlog of western wheat to market to clear space for this year's bumper crop on the Prairies.

The Bureau of Statistics reports that wheat movements are up 50 per cent over last year.

The amount of wheat in shipping points or in transit, and this does not include wheat still in the farmers' bins, is 150,000,000 bushels compared with 87,000,000 bushels at the same time last year.

Big, husky, powerful . . . the 55 is packed with lunging ability that really digs into your heavy work and gets it done quickly and easily. Yet with all of its power and brute strength, the 55 is surprisingly easy on fuel. It's the result of built-in governor and automatic spark control. You get controlled power . . . efficiency unmatched in a tractor as big as the 55 . . . plenty of power on heavy jobs, only the power required for lighter work. The 55 is more economical to own . . . brings lower production costs, greater savings to your farm.

See us soon for complete details on the Massey-Harris 55 . . . the tractor that thrives on heavy work.
